Portfolio Report

Be sure to go over the portfolio PowerPoint prior to starting the portfolio report

Section One – Investigating other developer online portfolios

- Choose at least three sites you like and three you do not
- Provide urls and screenshot images of your selected sites
- Indicate the specifics about what you like and what you don't like

Section Two – Your plans for your own portfolio

- An overall written description of your plans
- A wireframe and a sitemap / navigational structure diagram
- An idea as to color scheme you are thinking of
- An idea as to what your logo will be like (to be used on a business card as well)
- Indicate whether you will be using Bootstrap or not (it is allowed)

Section Three – Business Card

 An idea as to what your business cards will be like

Note: Ensure your business card is approved before being printed
